

**REMARKS**

The claims have been amended to improve their form and the definition of the invention.

In particular, claim 1 has been amended to take into account the disclosure of JP-45-7666, copy attached. Initially claim 1 included a disclaimer of a compound thought to be disclosed in the JP reference. However, it has developed that the disclaimed compound is not taught in the JP disclosure. Accordingly, the disclaimer has been deleted from claim 1 with other amendments differentiating from the JP disclosure.

The JP reference is listed in the PTO-1449 accompanying the applicant's disclosure statement which is being filed concurrently herewith.

The Examiner's attention is called to related application identified as SMC 60551 filed on even date herewith.

Respectfully submitted,

MORGAN LEWIS & BOCKIUS LLP
